Sudoku: Complete the grid so that every row, column and every three-by-three box contains the digits 1 to 9.

Samurai Sudoku: Complete the Samurai grid so that within each of the five 9×9 Sudokus, every row, column and three-by-three box contains the digits 1 to 9. You will always need to solve the puzzle as a whole, you cannot just solve each Sudoku individually.

Killer Sudoku: The totals in each dotted "cage" give the total for that region. As with Sudoku, complete the grid so that every row, column and every three-by-three box contains the digits 1 to 9.
